WARO APHRC@20 Celebrations

The West Africa Regional Office (WARO) in Dakar, Senegal, also celebrated APHRC's milestones and achievements with a particular focus on West Africa in a colorful event on Friday, 23rd June 2023. The event included a historical gallery display in French, speeches, and a lively panel discussion titled 'The development and decolonization of research in the Francophone context.'

APHRC@20 Symposium

As part of marking its 20th-anniversary celebrations, APHRC hosted a one-day symposium on Evidence to Policy Impact on Tuesday, 23rd May 2023. The symposium participants included stakeholders such as the government, partners, funders, civil society, and regional bodies. There were several moderated panel discussions with an array of intriguing topics and plenary engagement, all geared towards advocating for an evidence-informed decision-making approach.

APHRC@20 Celebrations in Nairobi, Kenya

APHRC celebrated 20 years of existence at its Nairobi, Kenya headquarters in style on Wednesday, 23rd May 2023. The Center told its story through a historical exhibit walkway showcasing its journey to date, vibrant speeches, and a high-level moderated panel discussion on African solutions to health and development challenges: Mainstreaming African-led research for national, regional, and global policy influence.
